

INFORMATION PACK

Discover Tasmania's natural and cultural values, our amazing wildlife, unique landscapes and ecosystems, and the things we can all do to reduce the threats and impacts on these incredible places, animals and plants.

Maria Island Discovery Camps

Our talented Discovery Rangers will lead your students on an exciting three day, two night adventure. Students learn about biology and ecology through hands-on experiences, as they delve into the island's fascinating past, and discover the fun and excitement of adventure in nature.

Maria Island Discovery Camps are suitable for Years 3 to 12, and designed to provide a curriculum-based environmental science and history program to enhance classroom-based learning. Activities include rock pool rambles, nocturnal spotlights, whale rescue training, devil discovery, interactive quiz night and bush trails.

Immersive, fun, and memorable, Maria Island Discovery Camps cost \$96 per person* and programs can be tailored to meet your specific requirements.

*Based upon a three day, two night camp. Inclusive of accommodation, ferry and activities. Minimum numbers apply for these costs.

Other education opportunities

School Visits - Invite a Discovery Ranger to your classroom! Armed with specimens, games, and activities, Discovery Rangers lead sessions on Tasmania's native wildlife, climate change, sustainability, conservation, ecology, and more!

Park Excursions - Why not book a Discovery Ranger to enhance your excursion to a National Park or reserve? Discovery Rangers will inspire and engage your students as they interpret the natural environment and deliver curriculum-based learning outside of the classroom.

Raptor Refuge - This unique facility is a working hospital and isn't open to the public. Discovery Rangers provide a curriculum-linked program to inspire students to care for raptors; meet them up close; and become a wildlife warrior when they take the raptor pledge.
