## PHOTO GUIDE

Photos tell a story about the Crown land and any built structures. It allows PS to easily determine what you want to do and whether an inspection of the property is needed before your application proceeds. Clear photos assist with the assessment process. The key points for providing photos are:

- Label photos clearly (ie view looking north, south, east, west or inside view).
- Make sure photos of close up shots are clear and you can see the detail.
- Where there are multiple structures on a photo, clearly indicate with an X, which ones are located on the Crown land relating to your application. This is particularly important for marine structures.
- Where there is nothing to identify the Crown land, mark the specific area that you are applying for with an X.
- For Marine Structures, include inside photos of boatsheds and a wide view which identifies your boat shed or structure amongst many others. Include a photo of the registration plate.

*Tips – Keep date and time stamped photos of the property. Record regular property maintenance.*

Photos can be sent via email or printed on A4 sheets and attached to an application. The preferred format is JPEG or PDF.
